

Interchain NFT+Metadata Working Group

Call #4

Welcome!

As you join, please introduce yourself **in the message thread**

I am <name> from <org>.
Have you seen <new development in the world of NFTs>?
<URL>

Please add your questions/comments in the message thread

Welcome & Agenda

Part 1: Core Team Update

1. *Welcome*
2. *Conceptual Framework for Metadata in the context of NFTs (Subgroup Report-back)*
3. *NFT-RFC-3 Interchain NFT Interface Standard*
4. *Status of Github Issues and PRs*
5. *What's happening in the world of NFTs*

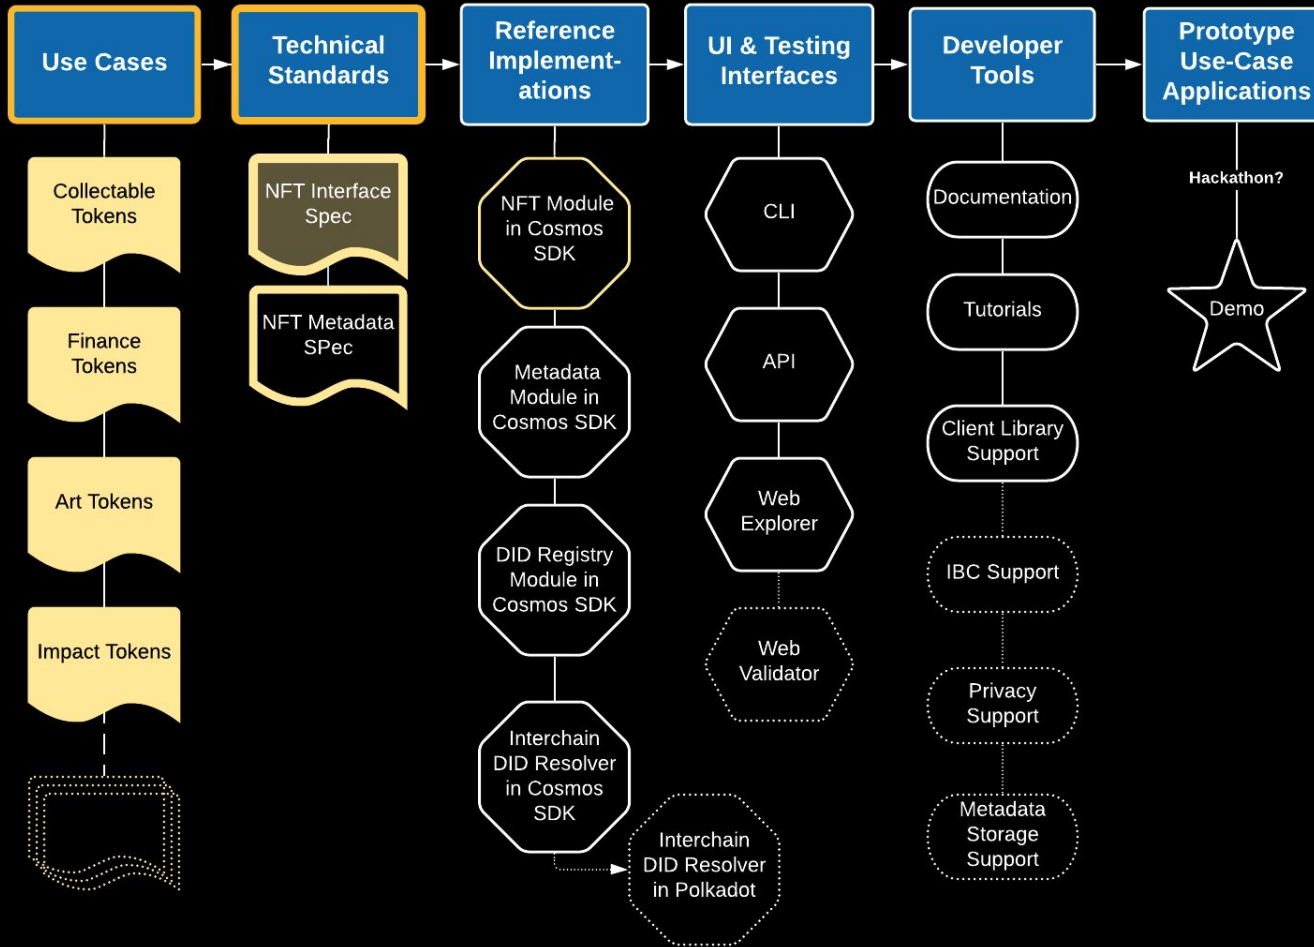

Part 2: Use-case Presentations

1. *Get Protocol*
2. *Freeflix Media*

Dr Shaun Conway (ixo)

A Conceptual Framework for Interchain Metadata

Sub-group Report Back

Joe Andrieu

President, Legendary Requirements

NFT Metadata Framework

NFT Metadata Framework

8. Operationalization	How the rights are realized upon receipt/presentation of token
7. Assertions	Statements about the resource represented by the token
6. Extensions & Restrictions to Rights	Caveats or addenda to rights represented in token
5. Instantiation	A specific instance of a token with well defined rights, logic
4. Embodied Rights	Real-world rights embodied/represented in token
3. Token Logic	Rules (fungible, non-fungible, rules for transfer, etc.)
2. Interchain	Cross-chain interaction
1. State Machine	Distributed consensus (on chain)

First Look at the draft Interchain NFT Interface Standard (NFT-RFC003)

Deepanshu Tripathi

CTO of Persistence One

Link for NFT-RFC003

https://github.com/interNFT/nft-rfc/tree/main/spec/nft-rfc-003_native_NFT_interface

 10min

Status of Github Issues & PRs

Joe Andrieu

President, Legendary Requirements

Status of Github Issues & PRs

- Documentation
 - <https://github.com/interNFT/documentation/issues>
 - <https://github.com/interNFT/documentation/pulls>
- NFT-RFC
 - <https://github.com/interNFT/nft-rfc/issues>
 - <https://github.com/interNFT/nft-rfc/pulls>
- Use Cases
 - <https://github.com/interNFT/use-cases/issues>
 - <https://github.com/interNFT/use-cases/issues/3>
[Difference between Re-fungible and Divisible](#)
 - <https://github.com/interNFT/use-cases/pulls>
 - <https://github.com/interNFT/use-cases/pull/5>
[Update NFT-REC-002-use-cases.md](#)
 - <https://github.com/interNFT/use-cases/pull/4>
[Add refungible to terminology](#)

What's happening more generally in the world of NFTs?

Check out the Comments Thread

You are welcome to say a quick word about significant developments

Use-Case Presentations from WG members

Get Protocol

Kasper Keunen

FreeFlix Media

Sistla Abhishek, Dayakar Reddy

That's a Wrap

Thank you all for attending this call

Keep in touch on **Cosmos Discord**: channel “nft-and-metadata”
